Series 3

Textured Lens

Textured Lens captures not just what you see, but what you feel. Layers of colour and memory blur into dreamlike surfaces, where texture meets imagination. Each piece captures fragments of mood and time, stitched together in earthy tones that invite reflection. Imperfect, hazy, and deeply human, the series offers a textured way of seeing the world.

Series 4

Summer Days

This series reimagines the summer through a pop-cultural lens, reflecting vibrant, textured settings that spark nostalgia and playfulness.

Bold colours, layered backdrops, and subtle details capture moments of leisure, from poolside afternoons, and camping trips to days at the beach. Balancing graphic clarity with painterly texture, these works turn everyday experiences and objects into a symbol of summer, memory, and joy.

Series 5

Shadow & Contrast

This collection of artworks explores still life, abstraction, and playful form through bold color, shape, and texture. Each piece reimagines familiar motifs: flowers, vessels, fruit and vases, into graphic compositions that shift between vibrant energy and quiet contrast. The result is a contemporary, expressive take on still life that is both playful and modern.

Series 6

Shifting Landscapes

This series explores the meeting points of nature and abstraction through layered geometry, shifting textures, and spacial contrasts. Shapes evoke landscapes, weather, and celestial rhythms – sun, moon, storm, ice, and earth – while bold color fields move between calm and tension. Each piece feels like a fragment of a larger environment, balancing organic atmosphere with crisp, modern design.
